

Ecolean® Base

ELI for 500 ml and 1000 ml

The Ecolean® Base lightweight packaging is suitable for pasteurised liquid dairy products and non-carbonated beverages. The intelligent design combines consumer convenience with low environmental impact. The packaging material is based on the Ecolean Calymer™ material technology and comes with a full Food Contact Approval Certificate. The ready-to-fill package is hermetically pre-sealed from factory and is distributed on jumbo reels. During the actual filling sequence, the package will be opened for approx. 2.4 s before it is sealed again. Ecolean Base packages are designed for applications and processes at max. +45°C. Ecolean is certified to BRC/IOP, ISO 22000 and ISO 14001.

CHARACTERISTICS

- Large display area
- Excellent printability
- Humidity-resistant
